## CNBM Profile

China National Building Material Group Co., Ltd. (hereinafter referred to as CNBM) is a central enterprise under the direct management of the State-owned Assets Supervision and Administration Commission of the State Council, which was approved by the State Council and founded through the merger of China National Building Material Group Co., Ltd. and China Sinoma Group Ltd.

CNBM is the largest comprehensive building materials industry group in the world, the leading developer for building materials and an integrated service provider throughout the world. It has been listed in the Fortune Global 500 for twelve years. By the end of 2021, the company has total assets of more than 650 billion yuan, annual revenue of more than 410 billion yuan, a total of 200,000 employees and 14 listed companies.

CNBM is a technology-based enterprise, with the strongest scientific research strength in the field of building materials and inorganic non-metallic new materials in China. It takes possession of 38,000 scientific R&D and technical engineering employees, 26 national scientific research and design institutes, 17,600 valid patents, 55 national industrial quality inspection centers, 11 national key laboratories and engineering (technology) research centers and 19 national standardization technical committees. It has won 7 first prizes for national scientific and technological progress and 4 Chinese industrial awards. CNBM has officially transformed into a state-owned capital investment company, and is currently accelerating the development of a world-class material industry investment group with global competitiveness.
